STAPLED WOOD VENEER PLANT BANDS

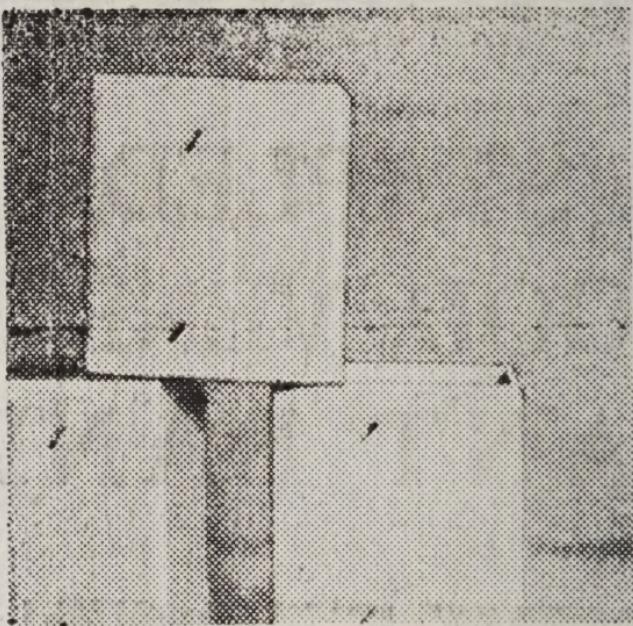

**For Growing
Flower & Vegetable Plants**

We will mail samples of our Bands when ever requested to do so.

**Arlie Woodard & Son
Dongola, Illinois**

Wood Veneer Plant Bands are convenient and economical to use. Many growers use them to start plants and others use them for transplanting.

We furnish nine different sizes.

Will cut and staple special sizes in quantities except during the months of January, February and March.

Since the war is over we are using two staples in all sizes of bands... During the war we could not get wire enough to two staples in all bands.

ARLIE

Band Before Stapled

Bottom

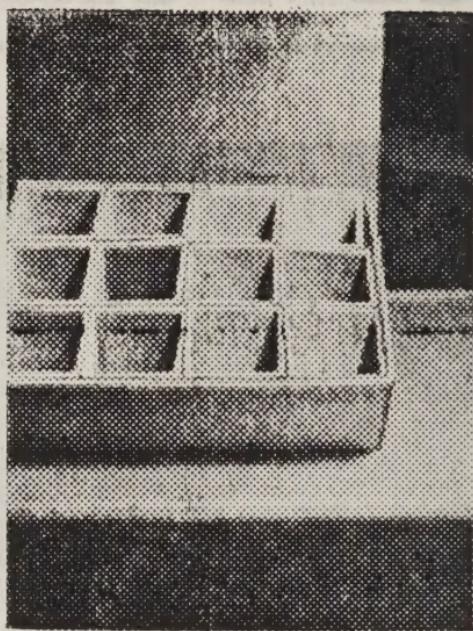

Many growers prefer having bottoms for the bands. These bottoms slip right into the staple band. Bottoms are not stapled in when shipped.

Some growers prefer using bands not stapled. They are shipped flat.

We are located thirty miles from the Southern end of Illinois, on Illinois Central Railroad. We also have connection with one of largest Motor Truck Lines in U. S.

We can ship L.C.L. shipments in car loading from CHICAGO to Pacific Coast, also to East Coast.

WOODARD & SON

LIGHT WOOD FLATS OR TRAYS.

Each flat holds dozen plant bands.

These flats are ideal for selling plants.

THREE SIZES

No. 00—Holds dozen $1\frac{3}{4} \times 1\frac{3}{4} \times 2\frac{1}{2}$ Bands

No. 000—Holds dozen $2 \times 2 \times 3$ Bands

No. 0000—Holds dozen $2\frac{1}{2} \times 2\frac{1}{2} \times 3$ Bands

Our stapled Plant Bands are made from Cottonwood, this material is very tough and holds up well. It does not mold quickly.

WOOD DOES NOT ROT! *It is Destroyed*

by FUNGI - INSECTS - MOULDS

Wood coming in contact with composted soil is rapidly destroyed because of high percentage of micro-organisms in the soil.

KOPEX immunizes the wood, offering the only complete protection from these fungi.

We have thoroughly tested KOPEX and find that wood bands will last many weeks longer when treated with KOPEX.

Give it a try and be convinced. KOPEX has no equal as a "wood" preservative, against wood decay.

KOPEX

IS THE ANSWER

KOPEX IS A METALLIC BASE LIQUID. IT IS THE SOLUTION TO THE PROBLEM OF PROTECTING WOOD FROM ATTACKS OF ALL INSECTS, FUNGI, AND MOULD GROWTHS WHICH DESTROY IT.

KOPEX

HARMLESS TO VEGETATION

Kopex is harmless to vegetable growth of any kind, in any stage of development. It is also harmless to men or animals. It has no offensive odor.

Invest a small sum in KOPEX and have big insurance to your wood plant bands, flats, and greenhouse benches.

KOPEX can be applied with brush or spray. An excellent way to treat wood veneer plant bands, is dip the band in KOPEX.

WOOD INSURANCE—WITH KOPEX

Kopex prevents wood decay

Kopex has no equal

Kopex is easy to apply

Kopex is not expensive
